Material safety data sheet

Version Number : 1

Acusat AQ SAFE (EN 14476)

Romain SAINT MERVILLE

This safety Data Sheet has been prepared in accordance with the REACH Regulation (EU) 2015/830 (modifications of CE 1907/2006).

1 . Identification of the substance/ mixture and of the company/ undertaking

1.1. Product Identifier

Product Name: Acusat AQ SAFE (EN 14476)
Description: Presaturated non woven apertured wiper impregnated with Virucids EN 14476

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses: Cleaning product
Alcohol-free disinfectant cleaner for all surfaces, very effective, quick and without rinsing. Food contact with or without rinsing. Virucide in 1min in dirt conditions (EN14476 sur Coronavirus, Influenza, Herpès HSV, Hépatites HBV, HCD, HDV, Rubella virus Paramyxovirus , rabies), Bactericide in 1min in dirt conditions (EN1276,EN13627 +A1, EN13615), Fungicide in 15 min in dirt conditions (EN1276,EN13627 +A1, EN13615),), Lecuricide in 1 min in dirt conditions on candida albicans (EN1650, EN13624,EN16615)

1.3. Details of the supplier of the Safety Data Sheet

Company name : GEKATEX SA
181 rue Léon Beauchamp
59930 La Chapelle D'Armentières
FRANCE

Phone number 00 33 3 20 17 97 00

E-mail Adress contact@gekatex.com

1.4. Emergency telephone number

Phone number INRS-ORFILA 00 33 1 45 42 59 59

2 . Identification of the dangers

2.1. Classification of the substance or mixture (CE) 1272/2008

Physical hazards Not Classified
Health hazards Not Classified
Environmental hazards Not Classified

Date: 28/04/20

Material safety data sheet

Version Number : 1

Acusat AQ SAFE (EN 14476)

Romain SAINT MERVILLE

2.2. Label elements

Hazard Pictograms :	None
SIGNAL WORD :	None
HAZARD STATEMENTS:	None
PRECAUTIONARY STATEMENTS	P502 - Refer to manufacturer / supplier for information on recovery / recycling.

2.3. Other hazards

Aucun autre danger identifié dans l'état actuel de nos connaissances

3 . Composition/information on ingredients

Only material that meet the CLP classification criteria ("Classification Labelling and Packaging of substances and mixtures" / Regulation (EU) 1272/2008) are listed in the tables below.

3.1. Substances

Not applicable. This material is defined as a Mixtures

3.2. Mixtures

The other components of this mixture are not classified according to the CLP criteria and / or directive 67/548 / EC or are present in concentrations below the threshold values.

4 . First aid measures

4.1. Description of first aid measures

Inhalation	Considered to be a low inhalation hazard at normal workplace temperatures. Get medical attention if symptoms are severe or persist.
If swallowed	Do not induce vomiting. Rinse mouth thoroughly with water. Get medical attention.
Skin contact	Remove contaminated clothing and rinse skin thoroughly with water. Get medical attention if symptoms are severe or persist.
Eye contact	Remove any contact lenses and open eyelids wide apart. Rinse with water. Continue to rinse for at least 15 minutes and get medical attention.

Date: 28/04/20

Material safety data sheet

Version Number : 1

Acusat AQ SAFE (EN 14476)

Romain SAINT MERVILLE

4.2. Most important symptoms and effects, both acute and delayed

-

4.3. Indication of any immediate medical attention and special treatment needed

Seek advice from a poison control center or toxicologist

5. Firefighting measures

5.1. Extinguishing media

All extinguishing agents are authorized: foam, sand, carbon dioxide, water, powder

5.2. Special hazards arising from the substance or mixture

Eventually, with organic materials, a fire could produce thick black smoke. The inhalation of smoke may be hazardous to health. Do not inhale smoke.

5.3. Advice for firefighters

Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.

6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Use protective methods as described in Section 8 of this safety data sheet. Avoid all contact with skin and eyes.

6.2. Environmental precautions

Avoid the spillage or runoff entering drains, sewers or watercourses. Inform the relevant authorities if environmental pollution occurs (sewers, waterways, soil or air).

6.3. Methods and material for containment and cleaning up

Absorb spillage with sand or other inert absorbent. Collect spillage for reclamation or disposal in sealed containers via a licensed waste contractor. Flush contaminated area with plenty of water.

6.4. Reference to other sections

/

7. Handling and storage

7.1. Precautions for safe handling

Do not swallow
Observe labor protection regulations.
Never open the packages under pressure

7.2. Conditions for safe storage, including any incompatibilities

Keep tightly closed in a dry, well-ventilated and cool place.
Store in a cool room.
Opened packages must be carefully closed and kept upright.
If an expiration date is indicated on the packaging, respect it.

7.3. Specific end use(s)

/

8. Exposure controls/personal protection

8.1. Control parameters

Chemical component with occupational exposure limits :
None

8.2. Exposure controls

Eye/face protection

None

Hand protection

Wash hands before breaks and at the end of work

Other skin and body protection

Immediately take off dirty or humid clothes.

Respiratory protection

None

9. Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	impregnated product
Colour	solvent : straw
Odor	scentless
Flash point	Not applicable
Melting point	Not applicable
Flammable Limits(LEL)	Not applicable
Flammable Limits(UEL)	Not applicable
PH	Not applicable (liquid : 10)
Viscosity	Not applicable.
Density	Not Defined (liquid : 1.003)
Other informations	Not applicable

9.2. Other information

/

10. Stability and Reactivity

10.1. Reactivity

No dangerous reaction if used and stored properly

10.2. Chemical stability

Stable at normal ambient temperatures

10.3. Possibility of hazardous reactions

Refer 10.1, 10.2 et 10.5

10.4. Conditions to avoid

Do not mix with other substance
None if used and stored properly

10.5. Incompatible materials

No incompatibility with the dose of employment. For sensitive metals such as aluminum, raw steel or alloys aluminum base, it is best to test on a small part.

10.6. Hazardous decomposition products

At high temperature, smoke and carbon monoxide and dioxides and nitrogen oxides

11. Toxicological information

11.1. Information on toxicological effects

The product has not been tested. The toxicological data are deduced from the properties of the various constituents.

Inhalation	Not Classified
Ingestion, aspiration	Not Classified
Skin contact	Not Classified
Eye contact	Not Classified

12. Ecological information

12.1. Toxicity

None

12.2. Persistence and degradability

The surfactant (s) contained in this product respect (s) the biodegradability criteria as defined in regulation (EC) n ° 648/2004 relating to detergents. The data proving this assertion are kept at the disposal of the competent authorities of the member states and will be provided to them at their express request.

12.3. Bioaccumulative potential

No additional data available.

12.4. Mobility in soil

No additional data available.

12.5. Results of PBT and vPvB assessment

No additional data available.

12.6. Other adverse effects

No additional data available

13. Disposal considerations

13.1. Waste treatment methods

General information

Disposal of this product, process solutions, residues and by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any local authority requirement.

Disposal methods

Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of the local water authority. Waste packaging should be collected for reuse or recycling.

14. Transport Information

14.1. UN Number

None

14.2. UN proper shipping name

None

14.3. Transport hazard class(es)

None

14.4. Packing Group

None

14.4.1 Inner Packaging

None

14.6. Environment precaution

None

14.6. Special precautions for user

None

14.7. Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code"

None

15. Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

EU legislation Regulation (EU) 2015/830 (2015 May 28) changing regulation (CE) 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

15.2. Chemical Safety Assessment

Information from the chemical safety assessment of substances in the product is incorporated into the appropriate sections of this safety data sheet, whenever necessary.

15.3. Biocidal assessment

Concerned

TP2 - Désinfectant utilisé dans le domaine privé et dans le domaine de la santé publique.

TP4 - Désinfectant pour les surfaces en contact avec les denrées alimentaires et les aliments pour animaux.

This product meet the requirements of the European Biocide directive N°528/2012

16. Other information

The Information provided in this Article Information Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guide for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The above information relates only to the specific material designated herein and may not be valid for such material used in combination with any other materials or in any process or if the material is altered or processed, unless specified in the text.
