

Polyscrub

Sealant Wipes:

In any car, sealant is primordial for protection against corrosion, but excess should be wiped off perfectly. When the sealant is applied by hand, our wipes are perfectly designed to remove all excess of sealant from the spatula or applicator. When it comes to robot, it can easily and precisely wipe off the spilling of sealant. Gekatex develops absorbent wipes, with designed structure to keep hands clean and enhance picking rate of every single wiping.

Product Description

Product Features:

- 100% Continuous-filament knitted polyester
- Scrubby structure for a better particle pick up
- Knitted and packed in highly controlled environment
- Laser Seal Edge for a lint-free wipe
- No Silicon, amides or DOP
